

PRODUCTS AND PRICES

PFC^{3D} 4.0

Software is sold through Itasca offices and a network of code-selling agents. If you do not know your office/agent, use the locator at www.itascag.com/agents. This document lists general international pricing. Prices vary by location, and are subject to change.

Academic institutions may be eligible for a 25% discount off their purchase. This discount can be applied to all non-lease PFC^{3D} products. The user must sign an agreement stating that the license will only be used for educational or research purposes.

Itasca offers a graduated discount to clients purchasing more than one of the same product for a single license. This “multiple key discount” can be applied to all non-lease PFC^{3D} products, except the CCFD add-on; however, it only applies to keys set at the current version. In offering this discount, we require that orders go through the designated license point of contact

Licenses

Item Number	Description	Price (USD)
262-1101-0706	Standard License.....	\$22,700.00
262-1301-0706	Upgrade from Ver. 3.1	5,675.00
262-1302-0706	Upgrade from Ver. 3.0 or older.....	11,350.00
262-1401-0706	Pre-purchase upcoming version.....	7,000.00

Pre-purchase of the upcoming version (available for current PFC^{3D} 4.0 users only) includes Enhanced Visualization (EV), access to pre-release software when it becomes available, and release materials shipped at no extra charge. Pre-purchasing offers significant savings over upgrading after the official release.

Enhanced Visualization (EV)

EV items added to keys that have the discontinued IV option enabled may be eligible for a discount. Contact Itasca for details.

Item Number	Description	Price (USD)
262-1207-0706	Enhanced Visualization	\$4,000.00
262-1208-0706	EV, already pre-purchased v. 5.0	2,460.00
262-1402-0706	Pre-purchase v. 5.0, already own EV.....	3,500.00

Network Version

Allows one or more instances of the code to be used on a local network, via a single key installed on a central server. The number of instances (seats) that can be run at one time is limited by the network key. Additional seats are priced the same as standard keys. All seats must have the same version numbers and options.

Item Number	Description	Price (USD)
262-1110-0706	Network License Fee	\$2,500.00

Optional Features

Item Number	Description	Price (USD)
262-1201-0706	Parallel Processing option*	\$7,945.00
262-1202-0706	Thermal option.....	2,270.00
262-1203-0706	C++/UDM Option**	5,675.00
262-1204-0706	Basic Fluid Analysis option*.....	2,270.00

CCFD

CCFD is a third-party computational fluid dynamics add-on for PFC^{3D} produced by ITOCHU Techno-Solution Corp. (CTC) of Tokyo, Japan. Allow 2-3 weeks for delivery of materials. Sales to certain countries are restricted.

Item Number	Description	Price (USD)
262-1206-0706	Standard License.....	\$15,000.00

Documentation

New licenses include one set of paper manuals. Each key comes with a copy of the Itasca CD-ROM, containing an electronic version of all volumes.

Item Number	Description	Price (USD)
262-2100-0706	Manuals, complete set (6 volumes)	\$231.25
262-2101-0706	User’s Guide	43.75
262-2102-0706	Command Reference.....	43.75
262-2103-0706	FISH in PFC ^{3D}	31.25
262-2104-0706	Theory and Background.....	37.50
262-2105-0706	Optional Features	31.25
262-2106-0706	Verification Probs. & Ex. Applications	43.75

Leasing (per month)

Users who purchase a standard license after a period of leasing receive a credit totaling 75% of the amount paid in lease fees over the previous twelve months.

Item Number	Description	Price (USD)
262-1901-0706	License	\$2,270.00
262-2001-0706	Parallel Processing option	794.50
262-2002-0706	Thermal option.....	227.00
262-2003-0706	User-Defined Constitutive Models	576.50
262-2004-0706	Basic Fluid Analysis option.....	227.00
262-2006-0706	Enhanced Visualization	400.00

Key Exchange

Fee does not include shipping. Fee waived if exchange is part of larger order. Does not apply to lost or stolen keys.

Item Number	Description	Price (USD)
262-2200-9999	Replace parallel key with USB	\$50.00
	or exchange broken dongle	

* This option will be discontinued in PFC^{3D} 5.0.

** The user-written C++ code option, which was one of the two components of the C++/UDM option, will be discontinued in PFC^{3D} 5.0.

For complete details on components, refer to the Product Components page: www.itascag.com/pfc3d/components.php
